

Explore the world of RNA

Join us in exploring the exciting world of RNA from sample preparation to result

Whether you're new to the world of RNA or you're a seasoned professional, there's something for everyone at our free RNA event — from the newest tools to technical tips that help your research.

We'll provide information on how to optimise your gene expression profiling workflow. Request samples of our latest products and learn more about our qPCR instrumentation and Cloud based data analysis solution. During this event, you'll learn about:

- gene expression analysis using qPCR
- microRNA analysis
- RNA sample preparation solutions
- reverse transcription
- the latest tips, products, and resources to help maximise your success

Pick up a free copy of our RNA techniques and applications poster.
