

TELETHON KIDS SINGLE CELL FORUM

Bringing together two lead single cell platforms - 10x and Dolomite - under one roof. The event will also feature the launch of the Telethon Kids Genome Innovation Hub initiative for the WA genomics research community, plus information sessions and live hands-on demos.

Find out information for planning your single cell venture including computational, technical, and biological aspects. Leaders in the field will discuss and share the latest innovations in single cell research during the panel discussion.

PROGRAM

9:00am - 9:45am	Launch "Telethon Kids Genome Innovation Hub"
9:45am - 10:30am	Keynote Talk, Rob Salomon Technical Director- Garvan Weizmann Centre for Cellular Genomics
10:30am - 10:45am	Coffee Break (provided)
10:45am - 11:30am	10x information session By James Miller Genomics Product Manager, Millennium Science
11:30am - 12:30pm	10x Demo session
12:30pm - 1:30 pm	Lunch Break (provided)
1:30pm - 2:30 pm	Dolomite-Nadia information session by Mark Gilligan Chairman & CEO, Dolomite bio
2:30pm - 2:45 pm	Coffee Break (provided)
3:00pm - 4:00 pm	Dolomite-Nadia Demo session
4:00pm - 4:30 pm	Panel discussion Single Cell Technologies & Applications
4:30pm - 5:30pm	Networking

Friday 25 May 2018, 9:00am – 5:30pm

Seminar Room, Telethon Kids Institute, 100 Roberts Road, Subiaco

Numbers are strictly limited, [REGISTER HERE](#)
