

MRFF Opportunities – Grant Connect

Title	Description	Funding Available	Closing Date	Grant Connect ID
Keeping Australians Out of Hospital Grant Opportunity	Support research into evidence-based, implementable and scalable preventive health measures that aim to prevent the development, or promote better management of complex and chronic health conditions, improve quality of life for people with these conditions and keep them out of hospital.	\$11,700,000	30-Jan-2019 5:00 pm (ACT Local Time)	GO1973
Frontier Health and Medical Research Program Stage One – Research Plan	<p>Creates opportunities for researcher collaborations to explore bold and innovative ideas in the health and medical research sector and/or make discoveries of great potential and global impact.</p> <p>Stage One supports the development of a detailed research and implementation plan that will form the basis of a Stage Two application. The research plan will cover up to five years of activity to take your idea from concept to outcome. You must demonstrate how your idea is novel and transformative, and how you will bring together multi-disciplinary research and industry partners to transform your idea into practical benefit for Australia.</p>	\$10,000,000 (up to \$1M per grant)	26-Feb-2019 5:00 pm (ACT Local Time)	GO1980
International Clinical Trial Collaborations Grant Opportunity	This competitive grant opportunity will provide support for Australian research teams to conduct clinical trial research in collaboration with international counterparts. Applications to this grant opportunity must propose a single clinical trial that will achieve the following outcomes: promote Australian involvement in international collaborative investigator-initiated clinical trials research through the establishment and co-ordination of clinical trial site/s in Australia; and provide high-quality evidence of the effectiveness of novel health treatments, drugs or devices in ‘usual care’ settings, which will support a decision on whether to deliver the intervention in an Australian setting. Novel health treatments include new and innovative applications of existing interventions.	\$42,000,000	20-Apr-2022 5:00 pm (ACT Local Time) Note: ongoing round	GO1737
