

RESEARCH WEEK 2019

Putting Patients First

You are invited to attend St John of God Subiaco Hospital's annual Research Week, Monday 26 - Thursday 29 August 2019.

The week offers a full program of industry and public events and will showcase current research, new discoveries, treatments and case studies.

This year's theme is 'Putting Patients First' which is part of the hospital's focus on caring for the physical, emotional, intellectual, social and spiritual needs of patients.

An interactive exhibition will also be held in the Hospital's main foyer throughout the week, highlighting research projects by St John of God Subiaco Hospital's health professionals.

Register for Research Week events at sjog.org.au/researchweek
